Foxit PDF Editor+

Lizenzierung, Preise und Verlängerung

Foxit PDF Editor+ gibt es als Subscription mit einem Jahr Laufzeit. Der Preis gilt pro Benutzer, die Staffel richtet sich nach der Nutzeranzahl. Die Subscription verlängert sich nicht automatisch. Software-Express erinnert Sie rechtzeitig an den Ablauf. Für Bildungseinrichtungen und gemeinnützige Organisationen gibt es eigene Preise.

Für Ihr Angebot sollten wir wissen:

- wie viele Benutzer Sie benötigen
- ob Sie als Bildungseinrichtung oder gemeinnützige Organisation bestellen
- wann Ihre bisherigen Lizenzen ablaufen

Core Editing and Document Workflow

Advanced PDF Editing
Auto-detected text boxes give word-processor paragraph reflow; edit text, graphics, layout, and insert images or video anywhere.

Organize PDF Documents
Combine pages from multiple files, reorder by drag-and-drop thumbnail, then delete, swap, flatten, crop, and extract.

Compare PDF Documents
Highlights every difference between two versions, down to the smallest change across long-form and technical sets.

OCR Text Recognition
Faster, more accurate recognition turns scans, drawings, and mixed-content pages into selectable, searchable text.

Edit Scanned Documents
Editable Text mode turns OCR output into a fully paragraph-editable document — no retyping.

Export PDF Content
Export to Word, PowerPoint, Excel, RTF, HTML, text, and image formats with layout intact.

Forms and XFA Filling
Fill interactive, non-interactive, and XFA forms; auto-detect fields to turn paper forms into electronic PDFs.

Document Protection
Control access with passwords and certificates, integrate Microsoft AIP, and stay FIPS-compliant.

Smart Redaction
AI locates sensitive text and images and removes them permanently; manual redaction stays available for controlled review.

Technical Documents (AEC)
Auto-labels pages to keep drawing sets in order, adds custom symbols, and measures precisely on plans and markups.

Standards and Accessibility
Validate and create PDF/A-1a, PDF/A-1b, PDF/E, and PDF/X, and tag documents for Section 508 accessibility.

PDF Portfolios
Open, view, and create portfolios, then search within one file or across the whole collection.

Sign, Collaborate, and Work with AI

AI Assistant Built-In

Monthly Allowance Included

Agent-based chat keeps your goal in context, picks the right tools, and works through a request in steps — inside the document you already have open. Every seat includes a monthly AI allowance, with a paid Foxit AI upgrade when teams need more capacity.

- Answers, summaries, and translations in the open PDF
- Foxit Workspace turns documents, links, and notes into a finished report, deck, or diagram
- Local AI runs supported tasks on-device with Microsoft Foundry Local
- MCP connectors for Notion, Atlassian, and HubSpot
- Edit PDF Agent applies supported changes from chat
- Multi-document questions across everything you have open
- Bring Your Own Model to use a license you already pay for
- One shared allowance across every device and Foxit Workspace

Foxit eSign Built-In

150 Envelopes

- Send signature-ready PDFs without leaving the document
- Templates, form fields, and multi-document envelopes cut repeat work
- Status, alerts, and reminders keep agreements moving
- Authentication, audit trails, and certificates on every step
- A consistent signing experience across devices and locations

Mobile and Cloud

iOS & Android

- Pick up the same document on a phone or tablet — edit, comment, fill, and sign anywhere
- Foxit PDF Editor Cloud for browser-based editing and collaboration
- Plugins for Google Drive, Office 365, Chrome, and Edge
- Comment, review, and collaborate with the team straight from the browser
- Cloud sync carries every change back to the desktop editor

Enterprise Integration and Automation

- Content management system integration, including iManage
- RPA-ready with certified UiPath integration
- Foxit DMS: one secure cloud repository with role-based access and version history (select regions)
- PRC 3D support — render, measure, and comment in context
